

Hi, I'm Mahesh Bodhanam —

A UI / Full Stack Developer with 3.5+ years of experience, and someone who believes in crafting seamless digital experiences.

I help startups and product teams build real-time dashboards, scalable web apps, and cross-platform mobile solutions using modern technologies like React.js, Tailwind CSS, Node.js, and CapacitorJS.

Clean code, responsive design, and performance-first approach—that's what I deliver.

What I Offer:

- ✓ UI/UX Development (React.js, Tailwind CSS, etc...)
 - ✓ Cross-Platform Mobile Apps (CapacitorJS)
 - ✓ Real-Time Dashboards (WebSocket, SSE)
 - ✓ REST APIs & JWT Authentication
 - ✓ Automation Testing (Playwright)
 - ✓ Responsive & Accessible Interfaces
 - ✓ Clean Code with Fast Delivery
-

Tech Stack:

React.js, JavaScript (ES6+), Redux Toolkit, Zustand, Node.js, Express.js, MongoDB, REST API, JWT, WebSocket, Server-Sent Events (SSE), HTTP Polling, HTTP Long Polling, jQuery, AJAX, Tailwind CSS, Material UI, Bootstrap, HTML5, CSS3, Regex, CapacitorJS, Playwright, GitHub, Postman

✓ Why Choose Me?

- ⚡ 3.5+ Years of Hands-on Industry Experience
 - ⚡ Strong Frontend + Backend Skillset (MERN Stack)
 - ⚡ Proven Expertise in Real-Time & Mobile-First Apps
 - ⚡ Performance Optimization & Clean Architecture
 - ⚡ Passionate About UI/UX, Testing, and Scalability
 - ⚡ Quick Communication & On-Time Delivery
 - ⚡ Adaptable to Agile & Remote Teams
-
